

How can we help you?

Many carers do not see themselves as such because they see themselves as a parent, spouse or partner, son or daughter, relative, friend or neighbour. 1 in 10 of the population are carers.

As a result carers often miss out on services, support, advice and benefits which may be available.

Carers Support can help carers from all communities across West Sussex by providing practical information and emotional support.

Our services include

Carers Support Workers

Our Carers Support Workers provide individual support to people caring for someone with any long term illness or disability. This includes access to our Carer Wellbeing Fund, a range of equipment to support independent living and information on financial support that may be available.

Our specialist workers offer practical and emotional support to help you in your caring role including -
